

Project Hub for Plant Engineering

Ready-to-use CAD workstations in Frankfurt – your team works from day 1

Task & goal

- ▶ A new order – but workstations, CAD environment and team are missing.
- ▶ You want to start right away – with hardware, licenses and configuration.
- ▶ You want to train new staff directly in the project.

Our solution

- ▶ Ready CAD workstations in a shared project room.
- ▶ Project environment configured: templates, pipe specs, catalogs, reports.
- ▶ Training on the project, support until handover.

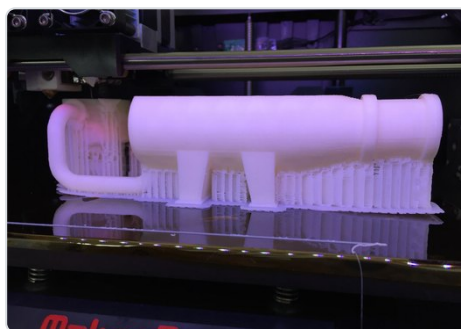

Your advantage

- ▶ **Time saved:** Productive from day 1.
- ▶ **Competitive edge:** Test a new business line without upfront investment.
- ▶ **Simpler:** Everything prepared.
- ▶ **Added value:** Know-how stays with your staff.

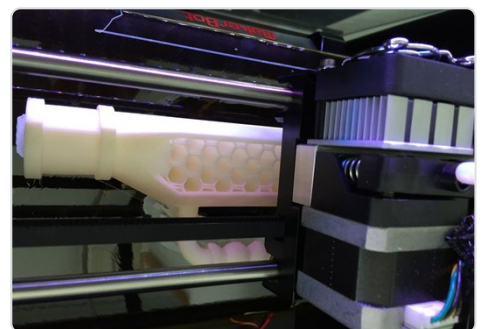

A new contract is coming, but workstations, CAD environment and team are missing? In the Project Hub in Frankfurt your team works from day 1 – at ready-to-use CAD workstations, with your configuration and experienced users at the next desk. Workstations, configuration, training and support individually or as a package.
